SWIFT MAKES PARD rich in meat proteins

Bank on its balanced nutrition—every time. The heat penetration study being made by the Swift nutritionist determines proper time and temperature to assure a sterile product. Here is another test in the rigid quality-supervision of this highly nutritious dog food that helps assure its constant uniformity.

You can feed Pard day in and day out confident of uniformity in *nutrient* content, taste, color, odor, and texture.

More—Pard has been *proved* capable of sustaining optimum health by the results of test feedings conducted on generation after generation of dogs in Swift's famous experimental kennels. On a strict diet of Pard and water—these dogs have shown excellent growth and maintenance. Reproduction normal. *Proof* that Pard contains every known essential for good nutritional health. Be safe! Feed and recommend rich, nourishing Pard—the complete "one-dish-dinner"!
